PROFESSIONAL SUMMARY

Data professional with 3.5+ years across data analysis, data engineering, and analytics engineering in banking, securities, and FMCG — building **dbt data models**, **data pipelines** (Airflow, Spark, Dagster), and **BI dashboards** (Power BI, Metabase) for Risk, Finance, and Operations teams. Strong in **SQL**, **data warehousing**, and **Python**, with a focus on data quality, clear reporting, and AI-assisted development (Claude, ChatGPT). Currently completing an MSc in Behavioural and Applied Economics at the University of Trento, available for part-time data, research, and reporting work alongside studies.

CORE SKILLS

- **Data Engineering & Pipelines:** SQL, dbt, Python, Apache Spark, Airflow, Dagster, Prefect, ETL/ELT, data modeling, data warehousing, CI/CD, Git
- **AI Tools:** Claude, ChatGPT; used daily for SQL and Python development, debugging, documentation, and analysis drafting, with manual review of outputs
- **Cloud & Databases:** Google Cloud Platform (GCP), BigQuery, Redshift, SQL Server, Oracle, DuckDB, MongoDB
- **Analytics & BI:** Power BI, Metabase, Excel, KPI design, automated reporting, stakeholder-facing dashboards
- **Research & Statistics:** survey design and analysis, regression and applied econometrics, quantitative research reporting (Python)
- **Data Quality & Governance:** data-quality checks & cleansing, reconciliation, monitoring & alerting, cross-team metric alignment
- **Finance & Payments Domain:** P&L, NAV, TWR, margin lending, derivatives, equities, covered warrants, Black-Scholes pricing

PROFESSIONAL EXPERIENCE

Data Engineer – BI & Analytics — KAFI Securities JSC, Ho Chi Minh City, Vietnam *Apr 2025 – Aug 2026*

- Designed, built, and maintained **dbt data models** and end-to-end pipelines using BigQuery, Python, and Dagster for cross-functional teams (Risk, Internal Control, Service Operations, Digital Sales), processing **1M+ records daily**.
- Built **data-quality checks and cleansing routines** and reconciliation logic for transaction, risk, and trading-performance datasets, cutting manual reporting workload by up to 90%; exposed BigQuery table functions as internal APIs with automated delivery and alerting for downstream applications.
- Migrated BI and analytics workloads from legacy GCP/BigQuery to a **Trino-based platform** with Apache Spark, Airflow, and Jenkins, enabling repeatable orchestration and **CI/CD** deployment workflows.
- Worked closely with Risk, Internal Control, and Digital Sales stakeholders to align on consistent metrics and definitions, translating operational needs into reusable analytical datasets and automated reports.

Data Analyst — Thanh Cong Securities JSC, Ho Chi Minh City, Vietnam *Feb 2024 – Apr 2025*

- Developed and optimized **dbt, SQL Server, and Python** data models, improving processing efficiency by over 70% and reducing query time by 50%.
- Automated portfolio and asset-management reporting (ROI, fees, dividends, performance) with SQL/dbt and **Power BI dashboards**, reducing manual reporting workload by ~80%.
- Implemented automated **data-quality checks and near-real-time Slack alerts**, plus internal API integrations across Oracle and MongoDB, to catch and resolve discrepancies before they reached downstream reports.
- Built a financial and commodity data platform ingesting Bloomberg, Investing.com, World Bank, FiinTrade, and FiinPro sources with Python, Selenium, BeautifulSoup, and Requests; standardized raw data into analytical marts.

Data Analyst — GREENFEED Vietnam, Ho Chi Minh City, Vietnam *Feb 2023 – Feb 2024*

- Gathered stakeholder requirements and modeled SAP, Solomon, and Excel data in **Redshift and dbt** for management-accounting, supply-chain, sales, and project-monitoring analytics, defining schemas, KPI logic, and BRDs.
- Automated 85% of recurring reporting, saving ~15 hours/week of manual work; built **Power BI dashboards** for P&L, margin, forecast accuracy, sales, and project status.

EDUCATION

MSc, Behavioural and Applied Economics — University of Trento, Italy *Sep 2026 – Expected 2028*

Focus: applied econometrics, statistical methods and data learning, programming, behavioral economics.

BSc, Finance – Banking — University of Economics Ho Chi Minh City (UEH), Vietnam *Aug 2020 – Dec 2023*

- **GPA: 8.31/10**
- Bachelor thesis: quantitative study of stock-investment decisions using survey data (n=254) and multiple linear regression; awarded Prize A at the UEH Young Researcher Awards 2023.

CERTIFICATIONS & AWARDS

- Google Data Analytics Professional Certificate (2023); IBM Data Analyst Professional Certificate
- Prize A — UEH Young Researcher Award (2023); UEH500 Excellent Subject Project Award (2022)
